## CITIZENSHIP BY HUNGARIAN HERITAGE

Normally, the requirement for getting citizenship is 8 years of continuous residency in Hungary but a **preferential procedure is available for applicants with Hungarian parents or heritage**, or for those with Hungarian spouses or children. Believe it or not, **having a Hungarian ancestor from the 1800s could qualify you!** This procedure could be **as fast as a few months** – you just need to provide proof of family connection and a basic knowledge of Hungarian. We are here to **assist with all parts of this process**, from researching your lineage to getting the required certificates, testing and (if needed) improving your language skills, and completing your application file. **You can even apply from abroad** – we'll ship your file to you!
